Company Profile

HY Bridge Formwork is a well-known specialized manufacturer regarding high speed railways, expressways, municipal works, large hydroelectric bridge formwork and steel structure.

Cover area

133,000 square meters

Workshop covers

55,000 square meters

Possesses assets

RMB 200 million

Annual capacity

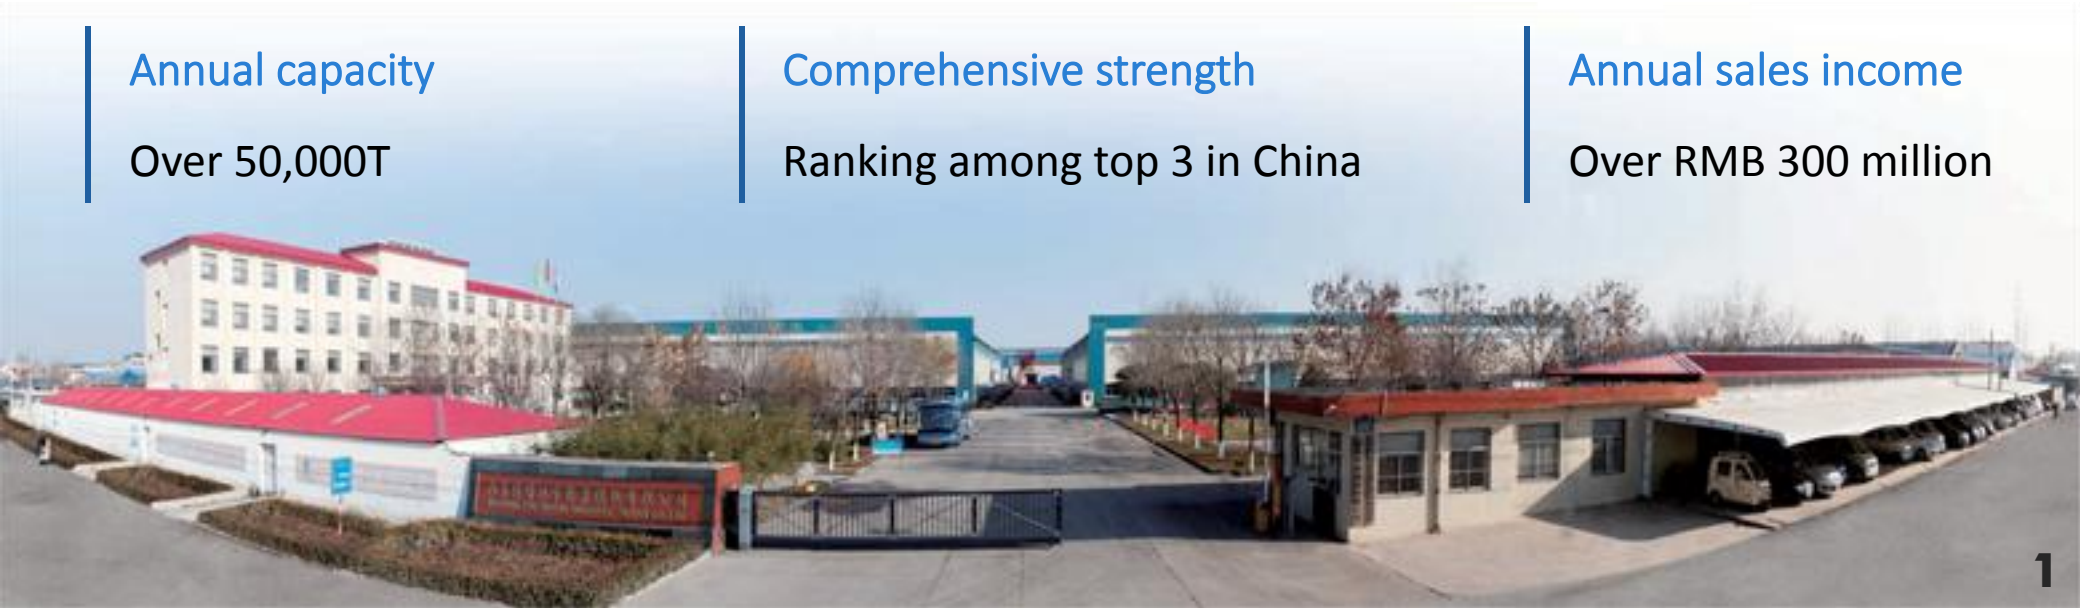

Over 50,000T

Comprehensive strength

Ranking among top 3 in China

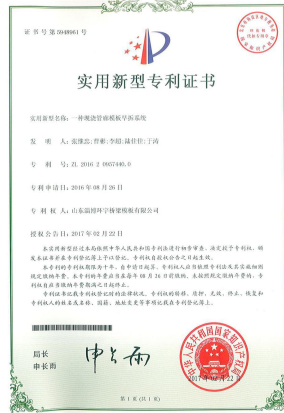

Annual sales income

Over RMB 300 million

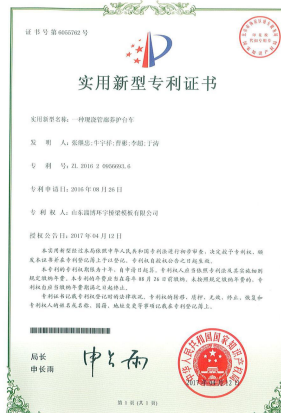

Honors

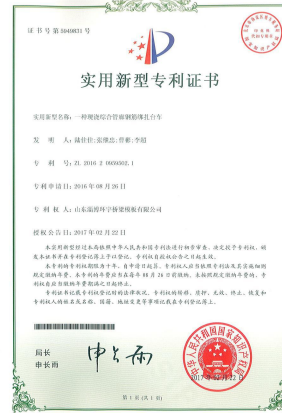

12 series of patents

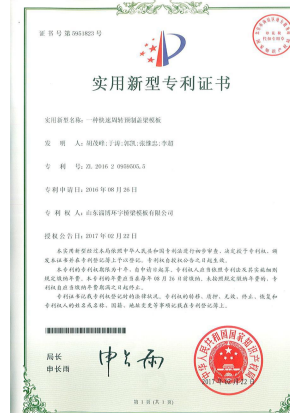

A cast - in - situ tube gallery mould early removal system

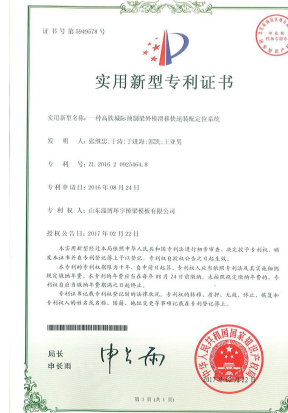

A cast-in-place pipe gallery maintenance trolley

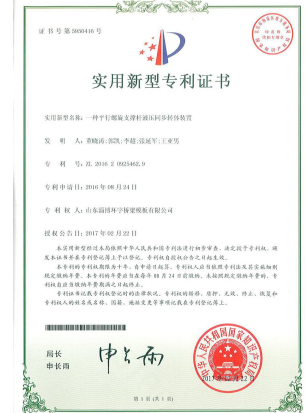

A cast-in-situ composite pipe gallery steel bar binding trolley

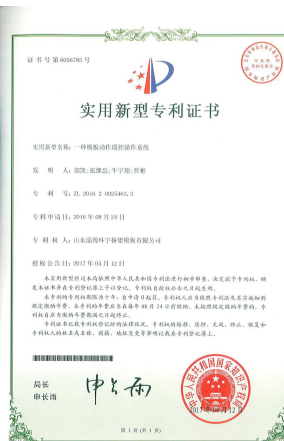

A fast turnaround precast cover beam template

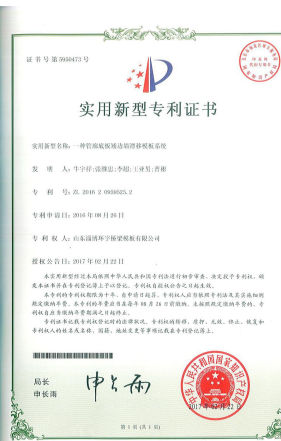

A high-speed rail inter-city prefabricated beam side mould slip quickly assembly positioning system

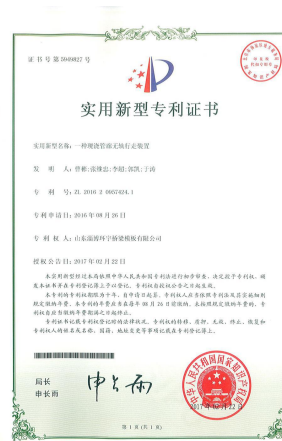

A hydraulic synchronous rotating device of a parallel screw supporting rod

A mould action remote control operating system

A sliding mould system for low side wall of pipe gallery bottom plate

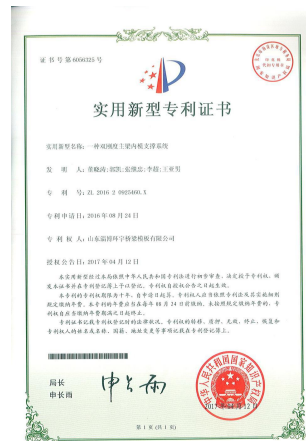

A trackless walking device of a cast-in-place pipe gallery

A variable width U beam slideable hinge seat

An assembly line prefabricated mould system

An inner mould support-stiffness main girder

ISO Certificates

ISO 9001 quality
management system

ISO 14001 environment
management system

OHSAS 18001 Occupational
Health and Safety
Management System

Domestic Certificates

Environment Management System

Occupational Health and Safety Management System

Quality Management System Certification

Construction Enterprise Qualification Certificate 2017

Work Safety Standardization Certificate 2015

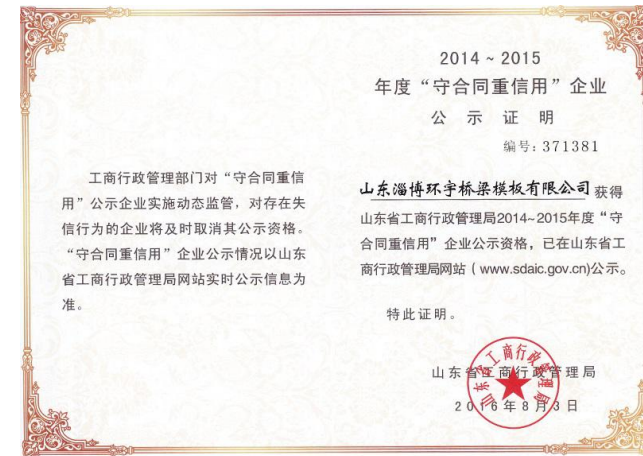

Membership of China Construction Metal Structure Association 2011

Tax paid mor than 10 million RMB Enterprises in 2016

Mould Scaffolding Recommended Enterprise 2015

Trustworthy Enterprise 2014-2015

Advanced Enterprise for Safety Production 2013

Council Unit of China Rent Association 2013

Advanced Construction Enterprises 2013

Partner of China Construcigton 6 Bureau 2013

First Level Qualification Recognition by China Mould Scaffolding Association in 2013

First Level Qualification Recognition by China Mould Scaffolding Association in 2010

Labor Relations Harmonious Enterprise 2012

Trustworthy Enterprise in 2010

China Mould Scaffolding Association Integrity Enterprises in 2009

Mould, Scaffolding integrity enterprises in 2010

Mould, Scaffolding integrity enterprises in 2007

Mould, Scaffolding Integrity enterprises in 2005

Advanced Equipment

HY Bridge formwork is devoted a “Digital Factory” mode, we adopts hundreds sets of advanced equipment to achieve **automatic, normalization and standardization production**. Quality and Specialized production is one of our advantages.

Hoisting equipment

More than 70 sets

CNC laser cutting equipment

7 sets

Processing equipment

More than 200 sets

Numerical control plasma cutting machine

Long strip numerical control punching machine

CNC shearing machine

Strip cutting plate

Disk sawing machine

Numerical control plasma cutting machine

Company product display

Shearing and stamping machine

Planer milling machine

CNC lathe

Numerical control press

Digital controlled drill

Arc pressing machine

Panorama of Batching One Workshop

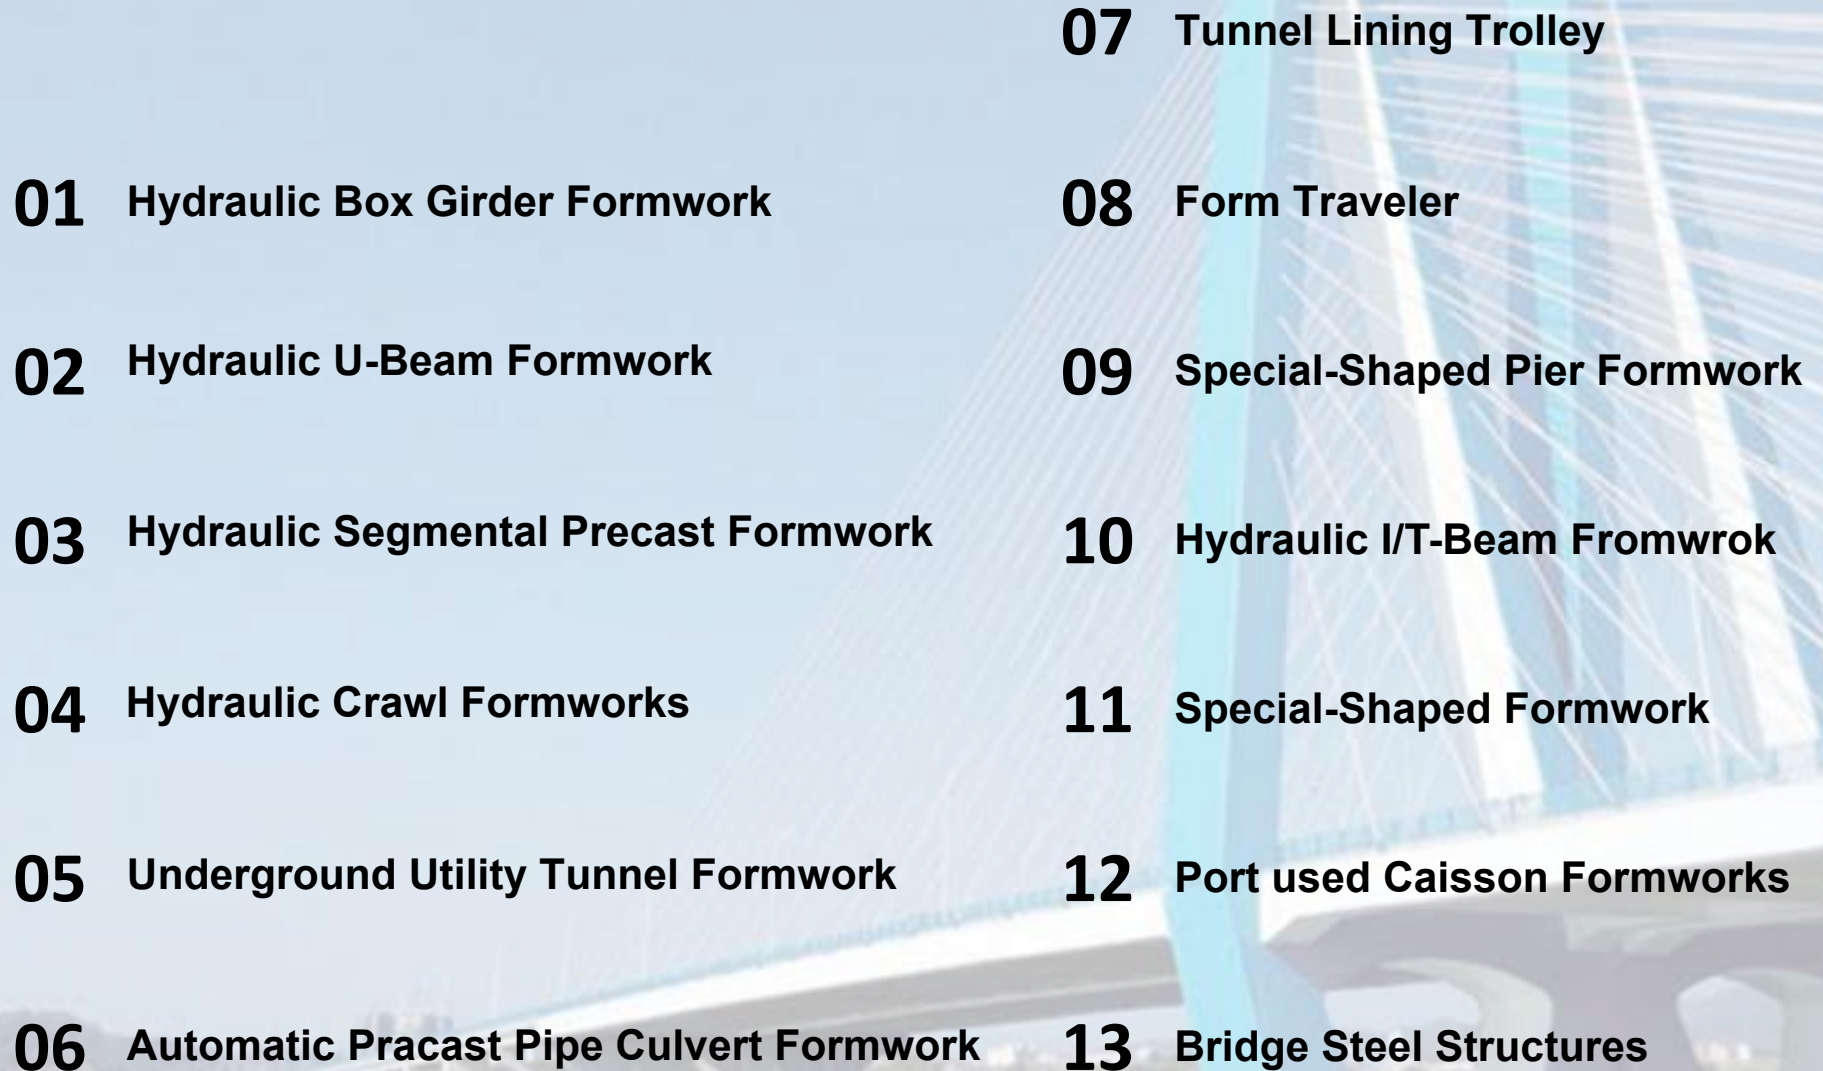

Punch

Shot blasting machine

Main Products

- 
- 01** Hydraulic Box Girder Formwork
 - 02** Hydraulic U-Beam Formwork
 - 03** Hydraulic Segmental Precast Formwork
 - 04** Hydraulic Crawl Formworks
 - 05** Underground Utility Tunnel Formwork
 - 06** Automatic Precast Pipe Culvert Formwork
 - 07** Tunnel Lining Trolley
 - 08** Form Traveler
 - 09** Special-Shaped Pier Formwork
 - 10** Hydraulic I/T-Beam Formwork
 - 11** Special-Shaped Formwork
 - 12** Port used Caisson Formworks
 - 13** Bridge Steel Structures

Quality Philosophy

We are devoted to providing zero defects products.

Execute quality control for each production processes and point to point control.
